Annex to the identical letters dated 21 April 2016 from the Permanent Representative of Azerbaijan to the United Nations addressed to the Secretary-General and the President of the Security Council

The ongoing armed conflict in and around the Nagorno-Karabakh region of the Republic of Azerbaijan has resulted in the occupation of almost one fifth of the territory of Azerbaijan and has made approximately one out of every nine persons in the country an internally displaced person or a refugee. The Republic of Armenia bears the responsibility for unleashing the war and using force against Azerbaijan, occupying its territories, carrying out ethnic cleansing on a massive scale and committing other serious crimes during the conflict.

The international community has consistently deplored, in the strongest terms, the use of military force against Azerbaijan and the resulting occupation of its territories. In 1993, the Security Council adopted resolutions 822 (1993), 853 (1993), 874 (1993) and 884 (1993), condemning the use of force against Azerbaijan and occupation of its territories and reaffirming the sovereignty and territorial integrity of Azerbaijan and the inviolability of its internationally recognized borders. In those resolutions, the Council reaffirmed that the Nagorno-Karabakh region is part of Azerbaijan and called for immediate, complete and unconditional withdrawal of the occupying forces from all occupied territories of Azerbaijan. Other international organizations have adopted a similar position.

In total disregard of the demands of the Security Council and in flagrant violation of international law, Armenia continues to undertake efforts aimed at further consolidating the current status quo of the occupation, strengthening its military build-up in the seized territories, changing their demographic, cultural and physical character and preventing the hundreds of thousands of Azerbaijani forcibly displaced persons from returning to their homes and properties in those areas.

Moreover, regular ceasefire violations, and attacks on the towns and villages in Azerbaijan situated along the line of contact of the armed forces of Armenia and Azerbaijan and the border between the two States, have become more frequent and violent recently, resulting in the killing and injuring of many Azerbaijani civilians. The Republic of Azerbaijan has repeatedly brought its strong protests and serious concerns in that regard to the attention of the international community and has made it clear on numerous occasions that the unlawful presence of the armed forces of Armenia in the occupied territories of Azerbaijan is the main cause of tensions and incidents in the conflict zone and the major impediment to the political settlement of the conflict. The Republic of Azerbaijan has also repeatedly stated that the military occupation of its territories does not represent a solution and will never produce a political outcome desired by Armenia.

Starting in the early morning of 2 April 2016, the armed forces of Armenia increased fighting from their positions in the occupied territories, subjecting the armed forces of Azerbaijan along the line of contact and the adjacent densely populated areas under control of Azerbaijan to intensive fire with heavy artillery and large-calibre weapons. As a result of Armenia's attacks and subsequent hostilities, 34 towns and villages in Azerbaijan were shelled, and a number of Azerbaijani civilians, including children, were killed or wounded. Substantial damages were inflicted upon private and public property.

By its deliberate, offensive actions, Armenia undermined the ceasefire regime established in 1994 and endangered the prospects for the political settlement of the conflict. On 5 April 2016 in Moscow, under the mediation efforts of the Russian Federation, the ceasefire was agreed between Armenia and Azerbaijan. Despite that, Armenia continues to violate that agreement by firing at the positions of the armed forces of Azerbaijan and the towns and villages situated along the line of contact, using large-calibre machine guns, mortars, grenade launchers and artillery systems. A list of the ceasefire violations by Armenia since 5 April 2016 is attached (see enclosure).

The recent escalation triggered by Armenia's offensive actions represents a serious challenge to international and regional peace and security. The Republic of Azerbaijan calls upon the international community to condemn Armenia for blatant violation of international law and the ceasefire regime, to demand its strict compliance with the 5 April 2016 ceasefire commitments and to engage constructively in substantive talks on the withdrawal of its armed forces from the occupied territories of Azerbaijan, which would thus pave the way for the further consideration of, and a solution to, remaining political issues. The conflict can be resolved only on the basis of the sovereignty and territorial integrity of Azerbaijan within its internationally recognized borders. The Republic of Azerbaijan will spare no effort towards achieving the political settlement of the conflict and ensuring peace and justice in the region.

(*Signed*) Elmar Mammadyarov
